Principal's Message

Jan/Feb, 2024

Hello Eagle Families!

It has been an exciting few months at ESS! Be it the academic accomplishments, personal growth, or simple moments of resiliency and determination, this time of year always allows us to reflect on the achievements and progress we have made at the end of Semester 1. We also are fortunate to look ahead to what possibilities still await us in these final months of the school year - the development of new skills, finding new and innovative ways to serve our community and our individual contributions to the collective success of our school. This is the true essence of being an Eagle.

These pages will showcase the many ways that our school is bringing light to the world. Whether it is through our LLF Music Celebration or our Limestone Skills Competition Gold Medalists, our Eagles are making their mark on the world. We are so proud of them. And we have no intention of slowing down in the latter part of the year, with our spring sports seasons starting up and our school musical "The Wizard of OD-essa" rehearsals already underway! Amid all of these activities, at the heart of our school lies a sense of belonging and care for one another. As we navigate the challenges and triumphs of each day, let us always remember that we are part of a community that values compassion, empathy, and support for one another.

As always, I want to extend my heartfelt gratitude to all of you for trusting your children with us and for your support and dedication to our school community each and every day. We wish you all a restful and rejuvenating March Break filled with joy, laughter, and cherished moments and look forward to returning refreshed and ready to embrace the plethora of opportunities that await us in the spring.

Warm regards,

Shannon

Currently, we are working with Meta Quest VR Headsets in my classes. In computer programming, we learn to create our own game demos for the headsets. We also use them in the tech design course to do virtual 3D modelling which is really fun. Oh, and sometimes we use them to play games too!

If you could have dinner with anyone famous - living or dead - who would it be, and why?

A view from the classroom

Ernestown Secondary School is excited to welcome a brand new program to the school. Our Hair and Aesthetics program is one of only two in Limestone!

This very exciting opportunity is allowing our students to experience the beauty industry and use their creative skills. Students have been learning about various careers, salon safety, hair textures, braiding, and so much more!

As the semester progresses, students will learn techniques for washing hair, blow outs, and Updos. They will also explore the aesthetics side of this course by diving into facials, make-up application, and nail care and design. Students will also welcome industry experts who will bring with them a wealth of knowledge and experience to share with students!
